

### ACCF FDAD 490 ACCESSORIES DESIGN

<b>Program</b>	Three-year course in Fashion Design
<b>Course</b>	Accessories Design
<b>Credits</b>	3
<b>Professor</b>	Sarah Magni

<b>Course Description</b>	<p>The course aims to provide the disciplinary tools necessary for the design of an accessories collection. The students will deepen and improve their technical skills by independently designing a collection inspired by the theme of their final fashion collections.</p> <p>The topics covered will be the following: sketches in 3/4 of the proposals, 1:1 full scale drawing, development family in 3/4, technical sheet, rendering, sketchbook containing sketches, notes, etc.</p> <p>Before the fashion show there will be 2 laboratory lessons where students will be able to materially create or personalize, change or modify existing objects for the fashion show accessories; everything must be documented with photos and descriptions in order to create a mini photographic catalog of the work in progress of the accessories made.</p>
<b>Student Assessment</b>	<p>Students will be assessed based on their development of tasteful, modern, commercially viable and non-banal collections.</p> <p>They will also be evaluated on their attendance and active participation in class and the weekly critiques of their home assignments.</p>
<b>Important Recommendations</b>	<p>Attendance is mandatory. Laboratory lessons are 2 and a half hours per week. Students will have to practice as much as possible at home by doing their homework and arriving prepared for class so that they can move forward with the design phases in classroom.</p> <p>Necessary material: The student must ALWAYS come in class with the necessary equipment:</p> <ul style="list-style-type: none"><li>-laptop</li><li>- A4 white paper</li><li>- A3 white paper</li><li>-pencil</li><li>-eraser</li><li>- white adhesive labels</li><li>-white liquid corrector</li><li>-tratto pen</li><li>- STABILO marker tip M and tip F</li><li>- highlighters</li><li>- 45 ° -60 ° squares and curvilinear for trousers</li><li>- cutter or scissors</li><li>-Scotch tape</li></ul> <p>Lack of equipment to work in class will result in the deduction of points on the outcome of the midterm grade and the final exam.</p>
