M.V. Lomonosov Moscow State University

Russian Business Practice

Course #: BUS/ECO 534
Professor: Asatiani Jumber

Credits: 3

COURSE DESCRIPTION

This course examines patterns of economic and business interactions in Russia trough the transition period, and the current legal, financial, management and marketing practices. We'll study how economic and political actors impact the formation of government and business institutions. Focusing on economic, political, cultural and demographic conditions and trends that influence business practices and investments in Russia, students will acquire precious knowledge of regularities and deeper understanding of peculiarities of doing business in Russia. The course will identify issues top managers and field managers face in key business areas, including investment and finance, marketing, public relations, brand management, HR management and organizational culture.

COURSE OUTCOMES

Upon successful completion the course the students will:

- be able to identify the best practices of international business operations in Russian market,
- learn SWOT analysis fundamentals,
- discover a world of opportunities open for the small and medium size businesses,
- get familiar with cross cultural management practices.
