

UNDERGRADUATE STUDY ABROAD COURSE CATALOGUE

ACADEMIC YEAR 2025/2026

Welcome to Heriot-Watt University's Study Abroad Course Catalogue

Please carefully read the information below and direct any queries to the team at visitingstudents@hw.ac.uk.

There are five academic schools that offer visiting student's courses to study. These are; EGIS (School of Energy, Geoscience, Infrastructure and Society), EPS (School of Engineering and Physical Sciences), MACS (School of Mathematical and Computer Sciences), SoSS (School of Social Sciences) and SoTD (School of Textiles and Design). You can mix and match courses from multiple schools at the same campus but please note that courses are only available subject to student's suitable prior knowledge, teaching availability and timetabling. Where courses become unavailable last-minute substitutions might need to be made. Please pay careful attention to which semester courses are run and the course level when selecting courses. Background knowledge may be expected even where specific pre-requisites are not listed:

- Level 7 = First year, introductory level, though some prior knowledge in the subject area may be expected
- Level 8 = Second year, prior knowledge in subject area likely to be required
- Level 9 = Third year, significant prior knowledge in subject area is required
- Level 10 = Fourth year is only open to study abroad students who are in the final year of study at their home institute and have the required prerequisites. If you believe you have sufficient background to take Level 10 courses please ensure you provide evidence of prerequisite knowledge in your application.

Students may take courses at the Edinburgh (main) and Scottish Borders campuses. The Borders campus offers courses in fashion-related subjects. Courses in all other subjects are offered at the Edinburgh campus.

- Accountancy and Finance
- Actuarial Maths and Statistics
- Chemical Engineering
- Civil Engineering
- Computer Science
- Electrical Electronic and Computer Engineering
- Management
- Mechanical Engineering
- Psychology
- Design (Interior Architecture and Communication Design courses)

Course timetables for Semester 1 (Fall) are typically made available in August; timetables for Semester 2 (Spring) are typically made available in December.
