

UNDERGRADUATE STUDY ABROAD COURSE CATALOGUE

Study Abroad Course Catalogue 2026/27

Please carefully read the information below.

There are five academic schools that offer courses to study as a non-graduating visiting student. You can mix and match courses from multiple schools at the same campus but please note that courses are only available subject to student's suitable prior knowledge, teaching availability and timetabling. Where courses become unavailable substitutions will need to be made. There is an increased risk of timetable clashes when selecting courses from different disciplines and levels. Please pay careful attention to which semester courses are available and the course level. Background knowledge may be expected even where specific prerequisites are not listed:

- Level 7 = First year, introductory level, though some prior knowledge in the subject area may be expected
- Level 8 = Second year, prior knowledge in subject area likely to be required
- Level 9 = Third year, significant prior knowledge in subject area is required
- Level 10 and 11 = Fourth year is only open to study abroad students who are in the final year of study at their home institute and have the required prerequisites.

As part of your application, you will need to complete a course selection form. Visiting students can take a MAXIMUM of 60 credits per semester (usually 4 courses) from across subject areas at the same campus. Please select 4 first choice and 4 alternative courses per semester to allow flexibility in case there are timetable clashes.

We have five campuses three in Scotland; Edinburgh (main campus), Orkney and Scottish Borders, and then one campus in Dubai and one in Malaysia.

There is a separate catalogue for our Design School based in Galashiels, Scottish Borders Campus. Please request this catalogue if you are interested in studying – Fashion, Textiles, Communication Design, Interior Architecture or Branding and Promotion.

Some courses in the following subject areas are available at our Dubai and/or Malaysia campuses. If you are interested in Study Abroad at one of these campuses, please refer to our webpage for contact information

• <i>Accountancy and Finance</i>	• <i>Electrical Electronic and Computer Engineering</i>
• <i>Actuarial Maths and Statistics</i>	• <i>Management</i>
• <i>Chemical Engineering</i>	• <i>Mechanical Engineering</i>
• <i>Civil Engineering</i>	• <i>Psychology</i>
• <i>Computer Science</i>	• <i>Design (Interior Architecture and Communication Design courses)</i>

Course timetables for Semester 1 (Fall/Autumn) are typically made available in August; timetables for Semester 2 (Spring) are typically made available in December.
